

Rosa 'Souvenir de St. Anne's'

Common Name: Rose Souvenir de St. Anne's

Description:

Rosa 'Souvenir de St. Anne's' is technically classified as a Bourbon. This beautiful antique pastel pink floribunda has semi-double blooms, with a musky cinnamon/clove fragrance. Its blossoms fade to a lovely white after opening. Blooms repeatedly throughout the year and is quite tolerant of partial shade. Its foliage is deep green, disease and mildew resistant. In our experience, it grows to be a graceful, 2-2 1/2' round. Not recommended for direct coastal areas. Use where you need the look of white 'ICEBERG', but on a compact plant.

- **Type:** Rose
- **Exposure:** Full to Part Sun
- **Height:** 2 Feet
- **Width:** 3 Feet
- **Hardy To:** -15° F
- **Blooms:** Pink to White, Spring to Fall
